

Something's missing

von Fabia Jansen

It's so cold

So fuckin' cold inside here

I can't breathe

Too much pressure on my chest

I feel like

Something's missing

My eyes burn

My heart hurts

My head's so empty

What time is it?

I feel like *something's missing*

Everything gets heavy

I'm so tired

Sick of being alive

And as the first tears roll down my face

I feel like *something's missing*

I need you.

I want you.

Please, come back!

Cause without you

Something's missing
